

31 January 2022

Dear valued Rembrandt Residents, Staff, Families & Friends

Re: UPDATE - COVID OUTBREAK – REMBRANDT COURT

Thank you so much for your patience and understanding during this COVID-19 outbreak.

It is all good news today with no new COVID-19 infections being detected in our resident and staff populations meaning the total numbers of infected residents remain at 8 and 2 staff (many of which have recovered fully). We wish them all a speedy recovery. Thus our Orange Alert status (with conditions) remains in place however please note the additional information below:

1. For residents in **Rose House Red Zone** (currently 10 residents, 6 who have or have had COVID and 4 who haven't):

- Residents who have or have had COVID:
These residents have to remain confined to their rooms for 10 days after their individual positive test date so long as they have not had any COVID symptoms for 72 hours.

Residents who do not or have not had COVID

Unfortunately, we have received updated information from the Commonwealth that these residents have to isolate for 14 days after the latest positive case in their house/area – **as our last case was 27th January, currently (assuming no new infections) this means these residents must isolate until 12.01am Thursday 11th February.** We are working with each individual concerned to ensure their mental and physical health is maintained.

2. For residents in **Rose House Orange Zone and Tulip House:**

- These residents must still remain within their house (i.e. they can come out of their rooms and move around within the entire Rose or Tulip house area, excluding red zone) however must not leave this area. **Assuming no further infections, this restriction will cease from 12.01am this Thursday 3rd February 2022**
- Visitors – They can however have visitors - 1 person per day per resident for a maximum duration of 2 hours in residents' rooms. Exceptions apply (for end of life and where clinical indications are impacted) on application.
- These residents will be encouraged to wear masks where possible.

3. For residents in **Magnolia and Daffodil (Green zone):**

These residents can return to life as normal with the following restrictions:

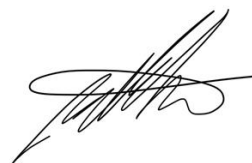

- They must not enter the orange or red zones.
- Visitors - 1 person per day per resident for a maximum duration of 2 hours in residents' rooms. Exceptions apply (for end of life and where clinical indications are impacted) on application.
- Going out - please keep to an absolute bare minimum (only medical appointments and important events, please no shopping centres and indoor crowded facilities).

We continue to monitor the situation closely and we will adjust our strategy (with little or no notice if needed) to ensure the safety of our residents and staff. We thank you in anticipation for your understanding. As always if you have any questions, please do not hesitate to contact us on info@rembrandtliving.org.au or 8198 0300.

Kind regards,

Deb Dutton
